Single-phase

FC 20

FC 20 - Single-phase Filling joints machine for ready-mix mortar.

FC 20 is a small single-phase vertical worm pump filling joints with electronic range variation of pump output capacity, it is very light weight, (only 45 kg) and compact, easy to use and fit for everybody: company, professional and also private users.

FC 20 is able to filling with a ready-mix plaster with max. aggregate size to 3 mm mixed separately by a mixer, the joints at least with a width of 8 mm on brick, brick facades, porphyry, paving, different types of stones and pebbles of various sizes.

The possibility of adjusting the pump output capacity, directly in the machine electric panel, allow to change output capacity from 0,5 to 4 l/min, therefore ensuring using in many different situations to perform fine joints on brick facades or larger joints on bricks or stones; also a single operator can be performed the filling because the machine can be stopped and started directly in the filling gun with the wired 24 V remote control included in the standard equipment.

Edilmac FC 20 is the ideal solution for filling joints easy and convenient.

TECHNICAL SPECIFICATION

- Motor pump – 0,5 kw - 230 V single-phase
- Max. Aggregate size to 3 mm (only premixed wet mortar)
- Pump output capacity- adjustable from 0,5 to 4 l/min.
- Hopper capacity 25 l
- Weight 45 Kg
- Size : height - mm 800 , width - mm 600 , length - mm 800
- Wired 24 V remote control pump to start and stop it

STANDARD EQUIPMENT

Standard accessories

- 2 filling guns with different nozzles
- Wired Remote control pump
- Mortar hose - 10 m
- Instructions manual, toolbox, accessories and declaration of conformity

Filling gun for joints with wired 24 V remote control
